To: United States Dept. Of Justice,

Please stop wasting the taxpayers money on this Microsoft suit. I have been buying their products since 1996 and have always obtained an excellent product at a fair price. In my opinion a company is not a threat or a monopoly when it behaves like Microsoft.

If the DOJ wants to do some good for the american public, then take the drug companies to task. They affect me adversely to the tune of \$350 a month, if you want to make an example of monopolistic abuse, you've got it with the "DRUGGIES".
